1. American Community Survey 2019-2023, unless noted otherwise

2. Median values for certain aggregate regions (such as MSAs) may be estimated as the weighted averages of the median values from the composing counties.

3. Disconnected Youth are 16-19 year olds who are (1) not in school, (2) not high school graduates, and (3) either unemployed or not in the labor force.

4. Census Population Estimate for 2023, annual average growth rate since 2013.

5. The Census's method for calculating median house values changed with the 2022 data set, so pre-2022 values are not directly comparable with later data.

Employment Trends

As of 2024Q4, total employment for the Lowcountry was 108,387 (based on a four-quarter moving average). Over the year ending 2024Q4, employment increased 1.1% in the region.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2024Q3 with preliminary estimates updated to 2024Q4.

Unemployment Rate

The unemployment rate for the Lowcountry was 4.0% as of March 2025. The regional unemployment rate was lower than the national rate of 4.3%. One year earlier, in March 2024, the unemployment rate in the Lowcountry was 3.5%.

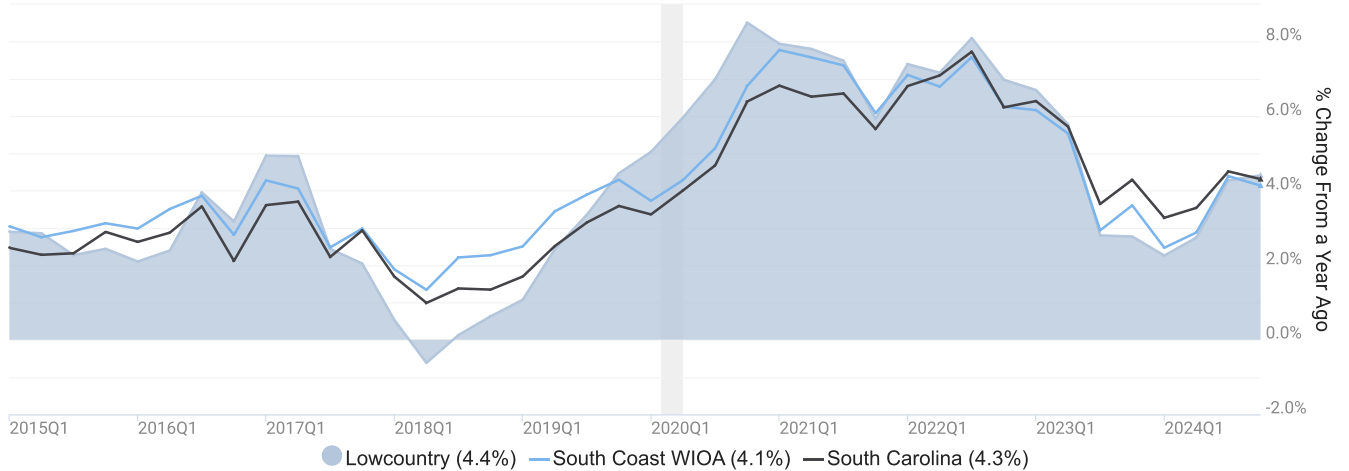

Unemployment rate data are from the Local Area Unemployment Statistics, provided by the Bureau of Labor Statistics and updated through March 2025.

Wage Trends

The average worker in the Lowcountry earned annual wages of \$52,679 as of 2024Q4. Average annual wages per worker increased 4.4% in the region over the preceding four quarters. For comparison purposes, annual average wages were \$73,145 in the nation as of 2024Q4.

Average Annual Wages for Lowcountry

Annual average wages per worker data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2024Q3 with preliminary estimates updated to 2024Q4.

Cost of Living Index

The Cost of Living Index estimates the relative price levels for consumer goods and services. When applied to wages and salaries, the result is a measure of relative purchasing power. The cost of living is 0.9% higher in Lowcountry than the U.S. average.

Cost of Living Information			
	Annual Average Salary	Cost of Living Index (Base US)	US Purchasing Power
Lowcountry	\$52,679	100.9	\$52,219
South Coast WIOA	\$62,109	101.5	\$61,170
South Carolina	\$58,950	92.8	\$63,558
USA	\$73,145	100.0	\$73,145

Industry Snapshot

The largest sector in the Lowcountry is Accommodation and Food Services, employing 16,135 workers. The next-largest sectors in the region are Retail Trade (16,006 workers) and Health Care and Social Assistance (14,522). High location quotients (LQs) indicate sectors in which a region has high concentrations of employment compared to the national average. The sectors with the largest LQs in the region are Accommodation and Food Services (LQ = 1.71), Arts, Entertainment, and Recreation (1.71), and Real Estate and Rental and Leasing (1.68).

Total Workers for Lowcountry by Industry

Source: JobsEQ®
Data as of 2024Q4

Note: Figures may not sum due to rounding.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2024Q3 with preliminary estimates updated to 2024Q4.

Sectors in the Lowcountry with the highest average wages per worker are Finance and Insurance (\$107,852), Management of Companies and Enterprises (\$100,430), and Wholesale Trade (\$92,355). Regional sectors with the best job growth (or most moderate job losses) over the last 5 years are Health Care and Social Assistance (+1,193 jobs), Construction (+901), and Retail Trade (+688).

Over the next 1 year, employment in the Lowcountry is projected to expand by 1,198 jobs. The fastest growing sector in the region is expected to be Health Care and Social Assistance with a +1.8% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Health Care and Social Assistance (+261 jobs), Accommodation and Food Services (+189), and Construction (+113).

Data as of 2024Q4

Note: Figures may not sum due to rounding.

1. All data based upon a four-quarter moving average

Exits and transfers are approximate estimates based upon occupation separation rates.

Employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and imputed where necessary. Data are updated through 2024Q3 with preliminary estimates updated to 2024Q4. Forecast employment growth uses national projections adapted for regional growth patterns.

Occupation Snapshot

The largest major occupation group in the Lowcountry is Food Preparation and Serving Related Occupations, employing 13,854 workers. The next-largest occupation groups in the region are Sales and Related Occupations (12,265 workers) and Office and Administrative Support Occupations (12,129). High location quotients (LQs) indicate occupation groups in which a region has high concentrations of employment compared to the national average. The major groups with the largest LQs in the region are Building and Grounds Cleaning and Maintenance Occupations (LQ = 1.85), Food Preparation and Serving Related Occupations (1.56), and Personal Care and Service Occupations (1.43).

Occupation groups in the Lowcountry with the highest average wages per worker are Management Occupations (\$111,100), Computer and Mathematical Occupations (\$98,800), and Healthcare Practitioners and Technical Occupations (\$97,900). The unemployment rate in the region varied among the major groups from 1.4% among Healthcare Practitioners and Technical Occupations to 6.7% among Farming, Fishing, and Forestry Occupations.

Over the next 1 year, the fastest growing occupation group in the Lowcountry is expected to be Healthcare Support Occupations with a +2.3% year-over-year rate of growth. The strongest forecast by number of jobs over this period is expected for Food Preparation and Serving Related Occupations (+162 jobs) and Healthcare Support Occupations (+116). Over the same period, the highest separation demand (occupation demand due to retirements and workers moving from one occupation to another) is expected in Food Preparation and Serving Related Occupations (2,716 jobs) and Sales and Related Occupations (1,714).

Data as of 2024Q4 unless noted otherwise

Note: Figures may not sum due to rounding.

1. Data based on a four-quarter moving average unless noted otherwise.

2. Wage data represent the average for all Covered Employment

3. Data represent found online ads active within the last thirty days in the selected region. Due to alternative county-assignment algorithms, ad counts in this analytic may not match that shown in RTI (nor in the popup window ad list). Ad counts for ZCTA-based regions are estimates.

Occupation employment data are estimated via industry employment data and the estimated industry/occupation mix. Industry employment data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics and currently updated through 2024Q3, imputed where necessary with preliminary estimates updated to 2024Q4. Wages by occupation are as of 2024 provided by the BLS and imputed where necessary. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Industry Clusters

A cluster is a geographic concentration of interrelated industries or occupations. The industry cluster in the Lowcountry with the highest relative concentration is Consumer Svc. with a location quotient of 1.52. This cluster employs 25,679 workers in the region with an average wage of \$36,491. Employment in the Consumer Svc. cluster is projected to expand in the region about 1.3% per year over the next ten years.

Industry Clusters for Lowcountry as of 2024Q4

Location quotient and average wage data are derived from the Quarterly Census of Employment and Wages, provided by the Bureau of Labor Statistics, imputed where necessary, and updated through 2024Q3 with preliminary estimates updated to 2024Q4. Forecast employment growth uses national projections from the Bureau of Labor Statistics adapted for regional growth patterns.

Education Levels

Expected growth rates for occupations vary by the education and training required. While all employment in the Lowcountry is projected to grow 1.1% over the next ten years, occupations typically requiring a postgraduate degree are expected to grow 1.3% per year, those requiring a bachelor's degree are forecast to grow 1.3% per year, and occupations typically needing a 2-year degree or certificate are expected to grow 1.4% per year.

Annual Average Projected Job Growth by Education Levels

Lowcountry Regional Map

Region Definition

Lowcountry is defined as the following counties:

Beaufort County, South Carolina
Colleton County, South Carolina

Hampton County, South Carolina
Jasper County, South Carolina

South Coast WIOA is defined as the following counties:

Beaufort County, South Carolina
Berkeley County, South Carolina
Charleston County, South Carolina
Colleton County, South Carolina

Dorchester County, South Carolina
Hampton County, South Carolina
Jasper County, South Carolina

FAQ

What is a location quotient?

A location quotient (LQ) is a measurement of concentration in comparison to the nation. An LQ of 1.00 indicates a region has the same concentration of an industry (or occupation) as the nation. An LQ of 2.00 would mean the region has twice the expected employment compared to the nation and an LQ of 0.50 would mean the region has half the expected employment in comparison to the nation.

What is separation demand?

Separation demand is the number of jobs required due to separations—labor force exits (including retirements) and turnover resulting from workers moving from one occupation into another. Note that separation demand does not include all turnover—it does not include when workers stay in the same occupation but switch employers. The total projected demand for an occupation is the sum of the separation demand and the growth demand (which is the increase or decrease of jobs in an occupation expected due to expansion or contraction of the overall number of jobs in that occupation).

What is a cluster?

A cluster is a geographic concentration of interrelated industries or occupations. If a regional cluster has a location quotient of 1.25 or greater, the region is considered to possess a competitive advantage in that cluster.

What is the difference between industry wages and occupation wages?

Industry wages and occupation wages are estimated via separate data sets, often the time periods being reported do not align, and wages are defined slightly differently in the two systems (for example, certain bonuses are included in the industry wages but not the occupation wages). It is therefore common that estimates of the average industry wages and average occupation wages in a region do not match exactly.

What is NAICS?

The North American Industry Classification System (NAICS) is used to classify business establishments according to the type of economic activity. The NAICS Code comprises six levels, from the “all industry” level to the 6-digit level. The first two digits define the top level category, known as the “sector,” which is the level examined in this report.

What is SOC?

The Standard Occupational Classification system (SOC) is used to classify workers into occupational categories. All workers are classified into one of over 804 occupations according to their occupational definition. To facilitate classification, occupations are combined to form 22 major groups, 95 minor groups, and 452 occupation groups. Each occupation group includes detailed occupations requiring similar job duties, skills, education, or experience.
